Furthermore my County School District Map does not show such a district, so that so far as Douglas County is concerned no such change has ever taken place.

No. 39, Notf. 199, in Tp. 19, R. 4 W; thence north following said claim line to the center line running east and west through Sec. 18, said Tp; thence west to the quarter section corner between Secs. 18, Tp. 19, 4 W, and Sec. 13, Tp. 19. 5 W; thence north ½ mile to the N. The reason for this change is because the former boundary included 318 acres belonging to W. A. Bohart which was not intended as it works the residents on his land a great hardship to attend school in the newly formed district.

The boundaries of Dist. No 20 were changed to conform to the above.

A petition from the legal voters of district No. 45 and 34 to change the boundaries of Dist. No. 34 was presented and the proper filing of posting of notices required by law was made. As there was no opposition and the board deemed it for the best interests of all concerned, the petition was granted and the boundaries of said district No. 34 were changed to read as follows:

Commencing at the N.E. corner of the N.W. quarter section of Sec. 17, Tp. 20, R. 3 W; running south to the N. line of the donation land claim No. 58, in Sec. 20, said Tp; thence west to the N.W. corner of same; south to Silk Creek; thence following Silk Creek to the east line of G.W. Decision of District Boundary Board:

The District Boundary Board realizing the vital importance of all parties concerned in this matter and having heard the earnest presentation of every issue bearing on the case from all the districts and individuals interested, and after having taken the matter under careful consideration for sometime, decides that in their opinion the town of Veneta and section surrounding it should have school privileges for their children and a new District should be organized in the future, yet they feel that it might work a great hardship on the other Districts involved if the new district were organized on the boundary lines proposed in this case.

They will therefore have to and do deny the petition on the boundary lines therein presented.

The District Boundary Board met in the county Court room at 10 A M. and after some discussion over the question of dividing School District No. 139 voted by a unanimous vote as follows: That the prayer of the petitioners is granted, but makes the suggestion to the Veneta people, that they should not claim to exceed $10.00 for any right they might have in the present Elmira school district property, when it comes to a division of assets and liabilities. They make the further suggestion that the boundary line just north of Veneta ought to be placed on the next sub-division line north of the right-of-way of the Willamette Pacific railroad and extend west to the

Long Tom river. Then follow up the Long Tom river to the present proposed boundary line of the Veneta district. They also suggest that the contracts with the teachers remain the same for the balance of the school year and no change in administration be made until the first of March, 1925.

The number given said new district was No. 28. and the boundaries are as follows:-

Beginning at the quarter section corner on the South side of Section 35, Tp 17 S, R 6 W. This case comes up on appeal from the decision of the District Boundary Board of Lane County in annexing School District 147, Lane County, to School District No. 32.

The notice of appeal from the decision of the Boundary Board, signed by George Johnson, was received in this office on February 6, 1925, and notice of the hearing on March 2 duly given to all interested parties.

The proceedings in the case have been regular in every respect, and the Boundary Board has acted within the authority vested in it by law.

The District Boundary Board met in the County Court room with all members present except Commissioner Hurd.

In the matter of the consolidation of District 183 and 121 the prayer of petitioners was granted and District No. 183 was abolished, so that the boundaries of District 121 will be the same as the combined districts. The money and property of all kinds belonging to District 183 will become the property of the merged district.

In the matter of the vacating of a former order of the board consolidating District #131 with No. 124J, for which a petition was filed; the board decided to ask petitioners to prepare a petition to secure more territory for their district, so that they may have a better valuation on which to levy a special tax to maintain their school, and if they secured a favorable response to this and the district had at least six children of school age who are permanent residents, they would rescind their former order to consolidate with District No. 124J and give them a chance to get "on the map" again. This must be done, however, within the next 40 days.

In the matter of rescinding the order of the board consolidating District No. 188 and No. 161, the Secretary was instructed to notify Mr. A. Karnowsky that it could not be done at this time, but if a petition were filed to form a new district and the ten required number of permanent resident children were in the district it would be considered.

Further investigation was asked on the petition of M. E. Marquart to permit his son to attend the Creswell high School instead of Union High District No. 6 at Walker.

Board then adjourned.

TO THE TEACHER:

A law was passed by the last Legislature which requires the superintendent, principal or teacher in every elementary public school of the state to make an examination of all children attending such schools for the purpose of determining defects of vision, hearing, dentition or other external obvious defects which will prevent or interfere with the normal education of the child.

The law further provides that the principal or teacher shall report physical defects of any child to the parent or guardian as soon as such defect or defects are apparent to observation or are revealed by observation or test. The report to the parent or guardian shall, without further direction, simply state that such defects are apparent.

The law provides that any parent or guardian may object in writing to the principal or teacher to the examination of his or her child and such pupil shall be exempt from any examination or test for or on account of any physical defect or noncontagious disease.

The law states that the inspection shall be made during the first month of the school year, but in view of the fact that the law is new and that many county superintendents wish to give additional information through their county institutes, it is recommended that the inspection be given soon after the annual county institute in each county. If no institute is held, then the examination should be made during the first month of school.

Your duty under this law is to make the inspection, record the results on the health inspection card, and report to the parents or guardians those cases that need attention. Any improvements made or defects corrected should be noted on the cards from time to time during the year. Your part in health inspection is to detect and record symptoms of defects and disease; that is, to detect any indications of departure from the normal in regard to vision, hearing, teeth, throat, skin, and general appearance. The diagnosis, treatment and cure belong to the physician. It should be borne in mind that health inspection does not mean complete medical examination.

The inspection is not difficult and requires only such powers of observation as are possessed by persons of average intelligence.

The success or failure of the health inspection law will depend upon the discretion you exercise in conducting the examination and in making your report to the parents. It must never be forgotten that although lack of information may render them apparently indifferent to the presence of a disease or a defect, parents are vitally concerned in their childrens' welfare. All reports should be made in a tactful manner, and suggestions must not be permitted to appear officious. A kindly interest in the child's health on your part should serve as a bond between you and the parents, and by a little tact or "the spirit of kindliness applied," much good can be accomplished.

The equipment for the inspection will be furnished through the office of your county superintendent and consists of the health inspection record cards, forms for notifying parents, and the standard eye test cards.

Should you need further information, feel free to consult your county superintendent, as well as this department.

The District Boundary Board met in the County Court room with a full board present and at once began the consideration of transferring territory from School Districts No. 99, 169 and 170 to School District No. 173. After hearing arguments on both sides, the board by unanamous vote decided to deny the petition without prejudice as it would leave School District No. 170 with so little valuation that it could scarcely exist as a district.

District Boundary Board
Eugene, Oregon

Gentlemen;

Will you kindly give me permission to change from Walterville High School District Number 5 to Springfield High School District Number 19. My reasons for wishing to change are: If I go to school in Springfield I will have only a few blocks to walk while if I went in Walterville I would have six miles to walk, which would be very unpleasant in the Wintertime. Also, I lived in Springfield and went to Springfield High School last year and as this is my senior year I would like to graduate from Springfield High School.

Thanking you in advance I am Yours Sincerely

IN THE MATTER OF THE DESCRIPTION OF THE BOUNDARIES OF THAT PART OF UNION HIGH SCHOOL DISTRICT NO. 5, LINN COUNTY, OREGON, WHICH LIES IN LANE COUNTY, OREGON.

PETITION

To the District Boundary Board of Lane County, Oregon:

The undersigned, Union High School District No. 5, Linn County, Oregon, by this Petition respectfully shows the following facts, to-wit:

That in the year 1927 Union High School District No. 5, Linn County, Oregon, composed of several school districts and parts of school districts in Linn County, Oregon, and a part of School District No. 15, Lane County, Oregon, was duly and regularly formed and established.

That said portion of School District No. 15, Lane County, Oregon, which was included in said Union High School District was described as follows, to-wit:

Beginning at the South quarter section corner of Section 8, Twp. 15 S. R. 4 W of the W. M. in Lane County, Oregon, thence East about 27 chains to what is known as the "Perkins Slough"; thence Northwesterly down the slough to a point East of the Southeast corner of Lot 22 of the Plat of Noraton; thence West to said Southeast corner of Lot 22 of the Plat of Noraton; thence West to said Southeast corner of said Lot 22; thence North to the South line of Lot 27 of Noraton; thence Northerly following the line between lots 22 and 27 and 21 and 26 of Noraton to the Willamette River; thence up the Willamette River to the South line of a certain tract of land in said School District No. 15 owned by J. M. Hochdanner; thence in a westerly direction along the South line of said Hochdanner tract to the East line of a certain tract of land in said School District owned by A. H. Smith; thence South along said East line to the East line of a certain tract of land in said school district owned by W. W. Hay; thence South to the South line of the said W. W. Hay tract; thence West to the Pacific Highway; thence Southerly along said highway to the intersection of said highway with the County Road running West towards Monroe, Oregon; thence Westerly following the center of said Monroe road to the West line of said school district No. 15; and thence North along said West line to the place of beginning;

which said description was incomplete in that the last course thereof should read as follows:

Thence North along said West line to the Northwest corner of said School District No. 15 and thence East along the North line of said District to the place of beginning.

That at the time the proceedings for the formation of said Union High School District were initiated and at all times thereafter it was understood by all parties concerned that there should be included in said Union High School District all that part of School District No. 15, Lane County, Oregon which lies North of the South boundary line set forth in said description hereinabove set forth, and that the error in said description above mentioned was due to a mistake of the surveyor who wrote said description;

That it is necessary that said description be corrected to conform to the actual intention of the parties at the time said Union High School District was formed for the reason that the Assessor of Lane County, Oregon, has refused to assess the property of said portion of School District No. 15 lying in said Union High School District for high school purposes and extend the same on the tax rolls until said error is officially corrected, and by reason thereof said Union High School District is unable to levy or collect any taxes in said part of said District;

That the correct description of the part of said Union High School District No. 5, Linn County, Oregon, which lies in Lane County, Oregon, is as follows, to-wit:

Beginning at the South quarter section corner of Section 8 Twp. 15 S. R. 4 W of the W. M. in Lane County, Oregon, thence East about 27 chains to what is known as the "Perkins Slough"; thence Northwesterly down the slough to a point East of the Southeast corner of Lot 22 of the Plat of Noraton; thence West to said Southeast corner of Lot 22 of the Plat of Noraton; thence West to said Southeast corner of Lot 22; thence North to the South line of Lot 27 of Noraton; thence Northerly following the line between lots 22 and 27 and 21 and 26 of Noraton to the Willamette River; thence up the Willamette River to the South line of a certain tract of land in said School District No. 15 owned by J. M. Hochdanner; thence in a westerly direction along the South line of said Hochdanner tract to the East line of a certain tract of land in said School District owned by A. H. Smith; thence South along said East line to the East line of a certain tract of land in said school district owned by W. W. Hay; thence South to the south line of the said W.W. Hay tract; thence West to the Pacific Highway; thence Southerly along said highway to the intersection of said highway with the County Road running West towards Monroe, Oregon; thence Westerly following the center of said Monroe road to the West line of said school district No. 15; and thence North along said West line to the Northwest corner of said District and thence East along the North line of said School District No. 15 to the place of beginning;

The District Boundary Board met with a full board present and proceeded at once to a hearing on the petitions and remonstrances from the districts in connection with the organization of a union high school at Junction City, Judge Potter representing School District #31 on that petition and Hon. E. J. Bailey representing Junction City. It was found, on consideration of the petition from said District #31 that enough persons wished to withdraw their names from said petition so that there were only nine names left on said petition, and not enough to constitute the required number.

On this showing of fact, it was concluded that the petition for District #31 did not have enough petitioners, to wit: (10) and therefore the case was dismissed without prejudice.

The board then adjourned.

The District Boundary Board in and for Lane County, Oregon, met on Monday January 5, 1931 and Canvassed the votes on the question for adding new territory to Union High School No. 3 at Crow. They found that in District No. 92 where the object was to have the entire territory placed in Union High School No. 3, resulted as follows:

Yes 9 - - - - Total 0.

In District No. 105, where it was sought to have the entire District in Union High School No. 3, resulted in 7 votes for and 0 against.

In District U-3, the votes resulted in 7 for and 0 against.

In District No. 184 in which part of the District lies in Union High School No. 3 and part in Union High School No. 2, and part of the territory in no District at all, the vote stood Yes 1 and 17 No.

It was therefore decided that by the election the entire territory in District No. 92, the entire territory in District No. 105, are united for high school purposes to Union High School No. 3 and Union High School No. 3 is increased by that territory, as the vote in District No. 184 resulted in 1 for and 17 against and this territory will remain as it is.

The matter to attach certain property Consisting of six sections from Unorganized territory which are now privately owned, to District #122, was postponed until the meeting of the Boundary Board to be held on Monday, May 11, so that a full board might be present to discuss the matter.

The Boundary Board appointed as County Assessor Ben D. Kuney, and Deputy Surveyor, J. M. McFarland,

a Committee to make more certain and definite, the boundaries between District #9 and District #40 in which the Camas Swale is used as the boundary by having the boundaries put on subdivisional lines and report the boundaries of each district to the board for ratification; their report to be given at the next meeting on May 11, 1931.

The communication from State Superintendent C.A. Howard regarding the number of units for the distribution of the Elementary fund to District #101 was read and the provisions of the Superintendents, allowing said District No. 101 by virtue of its Consolidation, that provisions in its budget for the transporting of pupils from both District 115 and District No. 101 to the school house at Cushman, was approved. It being understood that said District No. 101 should receive four units instead of two units for the years since its Consolidation in June, 1928. As district No. 101 has received the four units allowed in the distribution of the 1928-29 Elementary fund, and since the orders are made out for the distribution of the 1930-31 fund and said district No 101 has received two units for the year 1929-30, it was agreed that the Elementary fund due them for this year 1929-30 should be paid in the distribution of this fund for the year 1931-32.

There being no further business before the Boundary Board, a motion was carried to adjourn.

The District Boundary Board met in the County Court room with a full membership present. They at once took up the consideration of transferring a small portion of territory from District No. 50 to District No. 75. The prayer of petitioners was granted unanimously, and the boundaries of District No. 50 were established as follows:

Beginning at the South 1/4 Corner of Section 35, T21S, R4W, W.M., East 1½ miles; North ½ mile; East ¾ mile; South ½ mile; East to Summit of divide between Coast Fork River and Brumbaugh Creek; Northerly along said divide to the north line of Section 22, T21S, R3W; West to the Northwest Corner of Section 19 of said Tp.; South 1 mile; West ½ mile; South 1 mile; West 1 mile to County Boundary; South 1 mile to beginning.

And the boundaries of District No. 75 were established as follows:

Beginning at the South 1/4 corner of Section 26, T22S, R4W WM; East to the summitt of the divide between Coast Fork and Brumbaugh Creek; Northerly along said divide to the North line of Tp. 22S, R3W; West to East line of West ½ of Southeast 1/4 of Section 31, T21S, R3W, WM; North ½ mile; West ¾ mile; South ½ mile; West 1½ miles to County Boundary; South 5 miles to beginning.

In the matter of transferring from District No. 45 to District No. 34, there was much evidence taken by the parties in attendance. District No. 45, Cottage Grove, was represented by Attorney H. A. Lombard and quite a number of tax-payers and voters in District No. 34 spoke in defense of their Petitioners. Their matter was taken under advisement until Monday, October 19 at 9:00 A.M. for the decision of the Boundary Board.

There being no further business, the Boundary Board then adjourned.

Eugene, Oregon,
October 19, 1931

Inasmuch as the District Boundary Board feels that it would be a bad precedent to establish the lines of the two districts, No. 45 and 34, on the lines indicated by the petition of the petitioners for transferring certain territory from District No 45 to District No. 34, and the further facts that there are many people who have property assessed in District No. 45 and be transferred to adjacent districts, by unanimous vote they decided not to grant the prayer of petitioners but to let the said boundaries of District No. 45 and District No. 34 remain as they have been established before the filing of this petition.

Whereas, the following protest was received from some of the voters in U-#10 at Florence, the Boundary Board feels that they are not in a position to decide on whether or not the voters mentioned by the petitioners were legal voters in U-#10 at the time of the election on October 12, 1931, to say whether or not the 6% Constitutional limitation had been exceeded by said votes, but that the matter should be determined by evidence in a case which should be brought in the Circuit Court in this County. They have therefore refused to open the returns from said election and hold them here, subject to the orders of the petitioners from U-#10, who asked them to eliminate all non-tax-paying voters from the returns of the said election and believe that it is only the province of the Circuit Court to determine by evidence whether or not the so-called non-tax-paying voters are eligible to vote at said election. The returns of said election held October 12, 1931, have not been disturbed or opened and are in possession of the Secretary of the District Boundary Board, The County School Superintendent, E.J. Moore, and are subject to the order of the Contestants of said election in U-#10.

"Copy" Cushman, Oregon, Oct 12, 1931

To the District Boundary Board of Lane County:

We the undersigned legal voters of Union High School #10, respectfully ask that a careful check be taken of the votes cast at the election held on October 10th for the purpose of excluding the 6% limitation. We believe that a good many votes were cast that should not be allowed.

Under section 35-3702, Chapter 105, Oregon Laws 1931, only tax-payers residing in the district are not allowed to vote.

Therefore we urge that the names be carefully checked over and all non-taxpayers be eliminated therefrom -

Dear Mr. Dillard:

I must apoligize for not answering your inquiry in regard to the county high school tuition fund, more promptly, but I had asked the School Superintendent to separate the tuition from the transportation, and have just now succeeded in getting her figures on it. So I make haste to send the information requested.

With best personal regards, I am,

Yours very truly,

P. S. I might mention that the high levy indicated was required on account of deficit from previous years. For a number of years a levy of about 2 mills was made, raising about $25,000, and the fund went in the red about $40,000 in three years. Part of this was taken up last year and the balance in this year's levy.

Mr. W. B. Dillard, County Clerk

My dear Mr. Dillard:

Am enclosing statistical report concerning tuition and transportation, also tax levy for the school year of 1929-30. It is a little early to know what the cost for the school year of 1930-31 will be, but am inclined to think that it will be more than last year.

The transportation law as it is now written has increased the tax levy on property outside of high school districts. At the same time the enrollment in our high schools has increased. If the cost of transportation had remained as a tuition item as it was prior to the time of the enactment of the present law two years ago, it would have been far better for this county, but at that time transportation was made a separate item. This has encouraged ambitious high schools to grab for tuition and territory.

We have but one small high school in Clackamas County, hence we have had no experience so far as the discontinuance of the small high school is concerned.

Trusting that this information is of value to you, I am

Mr. W. B. Dillard, County Clerk

Dear Mr. Dillard:

On your questionnaire, the first three sets of figures were supplied by the County School Superintendent and the answers for the last two questions were left blank with an oral statement to myself to the effect that transportation cost has always been a part of the cost in re: tuition, but that the segregation of such transportation cost was not heretofore computed against the cost per pupil transported, but was computed in the cost per pupil as to the entire high school cost.

Now answering question number six, it appears that no increase has resulted from said item of transportation as same has always been charged. This will also answer your question number seven.

Answering number four and five, I may state that prior to the 1929 budget we did not consider a tuition tax as a part of the 6% limit.

The 1929 budget called for $30,284.00 on a valuation of $5,938,040.00 at the rate of 5.1 mills. This tax was not computed with the general levy so when the 1930 budget for high school tuition was fixed in the sum of $54,013.80 on a valuation of $5,401,380.00 making the rate ten mills. The Court was then obliged to consider said tax as a part of the general levy and keep within the 6% limitation. It therefore necessitated a decrease in the general road tax in the sum of $52,651.00.

The 1929 budget provided the sum of $125,709.88 for general road purposes and the 1930 budget fixed the general road tax in the sum of $73,058.24. Thus you will note the drop in road tax to be due to the increase of the high school tuition fund having been considered as a part of the 6% limit, slowly getting back.

The 1931 budget fixes the general road tax in the sum of $76,601.80 which indicates an increase of about $3,600.00 in excess of the 1930 budget.

The high school tuition levy is on the increase each year due to the fact that school districts are voting themselves into high or Union High School Districts for the reason that they are acquiring valuable properties with very few pupils to school so the benefit lies with the High

School District to accept, ~~for~~ and the balance of the County subject to the High School tuition tax with the lessened valuation and practically as many pupils are called upon to meet the cost, thereby placing additional burden which operates against the entire County being able to increase the general levy in excess of what 6% will effect that territory remaining subject to the High School Tuition levy.

Thus you will note that the small portion of the County under High School tuition which now has a valuation of $3,513,625.00 for the1931 budget (one year ago it was $5,401,380.00) controls the basis for fixing the entire county increase. Where the increase within the High School tuition territory is up to the 6% limit for this year the balance of the County is slightly in excess of 3%.

The situation is this: "Valuable lands with a small population are withdrawing from the High School Tuition Tax and leaving less valuation upon which the tax burden must fall to school about the same number of pupils, as noted above the valuation decreased close to two million dollars and while the tax decreased from $54,013.80 to $44,974.40, the levy increased from ten mills to 12.8 mills.

The school superintendent has this day informed me that two districts have, during the past week, transferred from High School Tuition tax into a Union High School. The valuation removed will be about $250,000.00 and no High School pupils will be effected by the Transfer. It is estimated for the next year that a levy of not less than fourteen mills will be required in the High School Tuition fund.

I am further informed by the School Superintendent that some of the districts now paying High School tuition tax are desirous of joining a High or Union High School District, but they are not desirable subjects for the reason that their valuations are low and the student risk is high, while under the present tuition plan the High Schools are receiving more money as tuition than they would receive if depending upon tax return upon the low valuations of the school districts wishing to join.

Dear Mr. Dillard:

Transportation has been an item included in the cost of educating high school pupils for many years. In 1930 transportation was segregated from the items and it was paid exclusively by the districts whose territory was not embraced in a high school district. This, of course, made a larger item for these districts but, on the other hand, made a truer estimate of the actual operation costs of the various high schools.

Your question as to whether or not there is a tendency to discontinue the small high schools, I do not have adequate information in regard to the state at large on this question. Columbia County has but one small high school and, though the roads are in good condition, they prefer to maintain their own institution (23 pupils).

There is keen competition among the various high schools as to what high school these tuition youngsters attend.

The district boundary board has endeavored to secure the advice of the districts concerned as well as the economic results.

Dear Mr. Dillard;

I have your letter of June 1st questioning the effect of including transportation in cost that the county must pay to a school district for its non-resident high school pupils.

In reply, will say that so far we have noted little tendency to discontinue the small high schools, that is directly through the transportation inclusion. Some five or six years ago one small high school was voted out because people became impatient because of the heavy continuous debt it had meant for them. Since that time a high school center has run a bus which for the most part takes care of the pupils of that region.

Two years ago the Laurelhurst School District #66 was voted out in order to use transportation to Prospect High School. The people understood that for the very small number of pupils they were paying a great deal more than their tax share in the County Fund would amount to. This last cited case is the only one which indicates tendency to discontinue the small high school as condition of the roads improve and transportation is attainable.

Very sincerely,
Susanne H. Carter

Dear Sir:

As High School Transportation is so new in this County we cannot say just what effect it will have on the small high school. It should cause some of these schools to discontinue but I doubt very much if any change will be made soon.

One thing we have noticed since transportation is in effect, is that more pupils are availing themselves of High School opportunities, thus raising the amount necessary for tuition costs. We figured last year that our transportation would cost us $20,000 and our tuition $40,000. When we came to pay the bills we found that the transportation was approximately $18,000 but that the tuition costs had mounted to $46,000. This was the result of two conditions- first, that more pupils entered High School because of transportation, and second, High School costs in general increased exceedingly. We are not expecting such an increase this year.

Trusting that this information may be of some help to you, I am

Dear Mr. Dillard:

Below I have listed the eleven high schools in Polk County, together with the cost of educating a student in each high school, also, the cost of transportation. You will note that high school transportation, in many cases, has increased the cost of educating a high school student 30 to 40 per cent. The mileage rate in Polk County for high school tuition and transportation is 8.6 mills. Since the high school transportation law has been adopted, one rural high school in Polk County, District No. 9, has discontinued and the directors are transporting their high school students to adjacent high school districts. The law has worked out well in Polk County, however, it is exceedingly expensive, costing all the way from $166.00 to $353.88 to educate a high school student one year. This excludes District No. 13 where part of the high school students are being educated through the Oregon State Normal School.

District	Tuition		Transportation	
No. 2	136.08	plus	$50.00	= 186.08

" 13	110.00	"	50.00	

In addition to the above high school districts, we pay tuition and transportation to Salem for educating about 100 of our pupils who go from Polk County to Salem. For these we pay about $130.00 tuition and $40.00 for transportation.

It is my opinion, that whenever the people become thoroughly acquainted with the high school tuition and transportation law and find that the taxpayers, who live in non-standard high

Monroe, Oregon,

Attention: Mr. Snyder, Principal.

Dear Sir:

Relative to high school pupils from Lane County attending Monroe High School, over which there has been much discussion, the Boarndary Board of Lane County, after what we feel is a very fair investigation, wish to advise that it is our opinion that these children can be taken care of in the high schools of Junction City, Blachly and Elmira, which are adjacent to their residence; hence cannot give our consent for them to leave this County and attend school in another county.

It would hardly be necessary, I think, to go into the many things that would be unfair in this respect, mainly, however, the increased cost to the taxpayers of Lane County. If, however, through lack of understanding of the loss and other considerations, some of these pupils are now attending Monroe High School and wish to continue, if it is agreeable with the Monroe High School Board, we would be willing to allow Monroe the same as it costs if they stay in Lane County, now $35.00 per year per pupil.

We are, of course, interested that all children with the ambition to gain an education have a chance, but we cannot see our way clear for them to go under the plan they had originally mapped out without discriminating very much in their favor.

We hope you will see our point in this matter, and assuring you that we do not wish to do other than justice toward all, we are
