

LANE ESD
STUDENT SPECIAL ASSIGNMENT RELEASE

To: Parents/Guardians

As an extension of the usual curriculum offered by the Lane ESD Special Education Programs, students may sometimes be allowed to spend part of their school day involved in special projects, classes or training situations. In these instances, it is important that the parent/guardian and teacher reach an understanding about the nature of the special assignment, where it will occur, who will be responsible for the student, and how the special assignment relates to the objectives and goals for the student.

Please read the following project that is proposed for your child. If you have questions or concerns, contact your child's teacher. If you consent to having your child participate, sign and return this form to the classroom teacher.

Thank you for your cooperation.
